EU Persistent Organic Pollutants

Customer Name:

Product Part:

Product Description:

NECAL Corporation has reviewed the materials used in your Products to the RoHS/REACH guidelines along with DecaBDE, Proposition 65 and Medium and Long Chain Chlorinated Paraffins; to the best of our knowledge our product has no materials above the reportable limits and is in compliance with the RoHS/ REACH, DecaBDE and Proposition 65 requirements. Any presence of the restricted substances contained in this product would be unintentional additions and inherently trace amounts only. NECAL Corporation also has no exemptions to declare. NECAL Corporation products are considered Articles.

The material evaluation has been verified via internal controls, and on information supplied to us by our suppliers. NECAL Corporation has not performed testing to determine if the products are free from the hazardous substances. We feel that the testing is not warranted. If testing verification is required, please contact our sales department for cost and timing of testing.

The materials and processes used in the manufacturing of our products do not use the minerals called out as “conflict minerals” in the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. In addition, NECAL Corporation has asked its suppliers to take all reasonable due diligence with their supply chains to assure that their products meet with the legislative requirements for the specified “conflict minerals”.
